**6,000 Marines, Seabees**

## *U.S. Lands Task Force In Viet Nam*

SAIGON (UPI)—A task force of 6,000 Marines and Navy Seabees landed today 350 miles northeast of Saigon to build a new American airbase. More U.S. Army paratroopers flew into two air bases outside Saigon, bringing U.S. troop strength in Viet Nam to 41,500.

There were no incidents, but a military spokesman disclosed the Viet Cong launched its largest attack of the year Thursday. A two-pronged assault hit a camp for Roman Catholic refugees in the Mekong Delta south of Saigon and an airbase where U.S. helicopters were refuelling nearby.

**Casualties Listed**

The helicopters armed with rockets and machineguns took off and silenced the Viet Cong mortars shelling their field at Camau before the Reds inflicted any damage. But the Communist force hitting nearby Hai Yen killed 48 defenders, wounded 77 and possibly captured 30 others listed as missing.

At the same time, 50 more planeloads of paratroopers and equipment flew into Bien Hoa and Vung Tau airbases near Saigon. A spokesman said 1,600 landed Thursday. He was not sure how many landed today. The brigade totals 3,500 men.

**Biggest Assault**

A U.S. spokesman described the guerrilla assault as the biggest this year. The Viet Cong stormed the camp at Hai Yen 180 miles southwest of Saigon where Father Nguyen Loc Hoa, known as South Viet Nam's "fighting priest," has long held off the Communists with a private army called the "Sea Swallows."

In the air war against North Viet Nam, U.S. Navy planes attacked transportation targets Thursday night in two separate missions.

## Good Evening!

S. O. Batting for G. G. G.

**OAS promises to send troops to give our occupation an international flavor.**

Up to now we have done the right thing in the Dominican Republic but if we let the Communist rebels act as a government from their own section of the city then we might lose any advantage we gained by landing the troops.

Besides the rebels keep picking off our men. If we are to follow through we will have to go in there and clean them out.

**At this moment the Alabama jury is still out in the Liuzzo case.**

The odds are way against the Ku Klux Klansman being found guilty despite an eye witness.

**More marines are being landed in Viet Nam.**

They will protect an air field the Seabees will build. Remember the old days when the Seabees built them in what seemed overnight?

**Our buddy De Gaulle raps our action in Santo Domingo which is about par for the course. However, he tries to be extra nauseating by indicating he will recognize the rebel government.**

Maybe it's about time we unrecognize De Gaulle.

**And talking about wars how about that one down in Philadelphia where Mayor Tate and Jerry Wolman are arguing about a stadium.**

The battle gets more bitter each edition.

**Put together a team of ex-Phillies starring elsewhere in the majors and it would win a pennant.**

Gene Mauch seems to be a good strategist but deficient in evaluating ballplayers.

**There's one TV station showing a late - late movie so old that John Wayne plays a coward.**

A local girl we know ends her prayers with. "And I ask nothing for myself — but please give my mother a son-in-law."

**Be Careful.**

## Jury Asks Questions In Ala. Trial

**By United Press International**

An all-white Hayneville, Ala., jury deliberating the fate of a Ku Klux Klansman charged with the murder of a civil rights worker asked the judge today for clarifying instructions regarding accomplices.

The jury, considering the first-degree murder case of 21-year-old Collie Leroy Wilkins Jr., deliberated only about a half hour this morning before filing back into the courtroom to pose the questions to Second Circuit Judge T. Werth Thagard.

Wilkins is charged with the murder of Mrs. Viola Liuzzo, 38-year-old mother of five who was slain March 25, a few hours after completion of the massive Selma-to - Montgomery civil rights march.

The state's case against Wilkins hinges on the testimony of an FBI informer, Gary Thomas Rowe, 34, who said he was with Wilkins and two other Klansmen the night Mrs. Liuzzo was killed. Rowe testified that Wilkins leaned out the window of a speeding car and fired two shots at Mrs. Liuzzo at almost point blank range.

Thagard handed the first-degree murder case to the jury at 3:40 p.m. Thursday and 75 minutes later a rap on the door of the high-ceilinged jury room appeared to herald a verdict.

But the jurors only wanted further instructions from the court. They asked whether they could convict the paunchy, crewcut defendant of a lesser offense than first-degree murder.

The judge, repeating his earlier charge, explained they had a choice of first-degree murder, second-degree murder, manslaughter, or acquital.

Two hours later, Thagard called the jurors back to the courtroom and gave them the choice of taking time out for dinner then or — if they still hadn't agreed on the fate of the

## Mother's Day Sunny, Warm

Good news for Mom. The weathermen says your day Sunday will be sunny and warm.

Mostly coudy skies prevailed in Lower Bucks today with more of the same tonight and tomorrow morning, possibly mixed with occasional light showers. However, clearing skies are due tomorrow afternoon with temperatures climbing to near 80.

Today's high was expected near 60. At 3 p.m., the thermometer reading was 50 degrees.

Sunday's outlook is for temperatures in the upper 80s on Mother's Day.

*U. S. TOLL 13*

# Wrong Turn Causes Death Of 4 Marines In Domingo

SANTO DOMINGO, Dominican Republic (AP) — Another wrong turn into rebel territory was blamed today for the deaths of four Marines, bringing the U.S. death toll in the Dominican fighting to at least 13.

U.S. sources said three Marines were killed Thursday after a patrol wandered accidentally into the insurgent-held sector of downtown Santo Domingo. Two others were wounded and one died after he was taken to the aircraft carrier Boxer.

A rebel spokesman said one insurgent was killed and two wounded in the encounter. The rebels at first accused the United States of violating the ceasefire arranged Wednesday by a peace commission of the Organization of American States. Later they said they believed e Marine patrol had taken a wrong turn.

**Newsmen Wounded**

Two U.S. newsmen who had been observing the clash from a taxi were caught in the crossfire and wounded slightly. They were Al Brut and photographer Doug Kennedy, both of the Miami (Fla.) Herald.

A U.S. military source said the newsmen had passed through a rebel checkpoint and were approaching the U.S. lines when the insurgents opened fire on the Marines and the Marines fired back. The source said it was probable that U.S. gunfire wounded the newsmen.

Another Marine patrol took a wrong turn Wednesday into rebel territory. After sharp firing the rebels captured two of the Marines but released them Thursday to the OAS Peace Commission. The commission returned them to American authorities.

In other incidents Thursday, snipers wounded two U.S. paratroopers and hit a helicopter, wounding the pilot in the legs. A flurry of sniping activity broke out near the U.S. Embassy during the afternoon, but it died down quickly.

Otherwise Santo Domingo was quiet Thursday, and more stores reopened for the first time since the revolution broke out April 24.

Col. Francisco Caamano Deno, the rebel provisional president, hotly denied a charge by a U.S. official that he had agreed to give Communists posts in his rebel government.

"It's a lie," Caamano told newsmen.

Caamano also denied a U.S. claim that Fidelio Despradel, identified as a prominent Communist, was one of his aides.

"I don't even know who Despradel is," Caamano declared.

U.S. officials in Washington said their government hopes to begin withdrawing some of its 20,000 troops from the Dominican Republic within a few days as contingents from other South American nations move in.

Officials indicated the number of withdrawals would depend mainly on the size of forces contributed by other countries to the inter-American military
(Continued on Page 16, Col. 3)

These U. S. Marines are a study in vigilance as they ride along a street in Santo Domingo, U.S. forces in blood-bathed Santo Domingo came under repeated attack yesterday despite the conclusion of a new "firm truce" in the divided city. (UPI Telephoto)

## Tornadoes Toll Mounts

MINNEAPOLIS, Minn. (UPI) — The toll mounted to 13 today in tornadoes that tore through at least a dozen Minnesota communities.

More than 400 were injured by the terrible winds that struck about twilight Thursday night. It was Minneapolis-St. Paul's second natural disaster in a month.

More than 27,000 telephones were out of order. Damage ran into the millions.

The number of dead stood at 11 as the night hours wore on. But as National Guardsmen and volunteers dug through rubble of expensive homes today, two more bodies were found in Mounds View.

Gov. Karl Rolvaag asked President Johnson to declare the area a disaster area.

In the South, another band of tornadoes slammed through Oklahoma, killing at least one person and injuring three others. Three of them were in a car that was dumped into a ditch. The twisters struck seven towns in a 100-mile stretch in western Oklahoma between Sentinel and Hollis.

The tornadoes which roared north of Minneapolis Thursday night clawed at a dozen towns. They came less than a month after the devastating Palm Sunday twister onslaught of April 11, when Midwest tornadoes curling south of Minnesota killed more than 250 persons.

The final toll of Thursday night's disaster was just being assessed as dawn broke.

**Sirens Sound Warning**

A blast of sirens in the Twin Cities of Minneapolis and St. Paul sounded the warning. Within 30 terrible minutes, men and women were sucked from their homes and hurled into the streets. Homes were punched into matchsticks.

Minks, released when the twister tore up their cages at Glencoe, Minn., ran loose in the town. Cars had been tossed like tennis balls.

# Melting Pot Of Friendliness

**By AL CHESTER**
**Courier-Times Staff Writer**

**(EDITORS NOTE: This is the fourth in a series by Courier-Times staff writers which will explore Levittown's origin and changing scene.)**

How would you describe the inhabitant of Levittown? Does he have recognizable traits that immediately distinguish him from residents of — say Fairless Hills or Newtown or New Hope, or any other small community or town?

What is he like, this dweller in the most famous mass-produced community in the world? Is he moral, amoral or immoral? What are his attitudes toward himself, his neighbors and the outside world?

**Not Always Easy**

These questions are natural enough to ask about the residents of any unique community. The answers are not always so easy to find. Perhaps there are no answers. In some communities there are perhaps no distinguishing traits, no real community of interests, tastes or habits that can distinguish their inhabitants from the inhabitants of a nearby town or city.

So it seems to be with Levittown, at least after talking to scores of long-time Levittowners, including ministers and police officials, and after studying statistics and records.

The question is then reduced to the elementary: is there such a thing as a Levittowner? In a physical sense, yes; in a sociological sense, apparently not. He's just not very different from his neighbors in other communities — in customs, habits, mores, sex-life, or what have you.

**Proud Of Community**

In his attitude toward himself and his community, he may differ from the resident of long-established municipalities like Philadelphia or Newtown, but he would not differ essentially from residents of other medium cost, mass-produced

*Freed Short-Lived*

## Lower Bucks Escapee Back In Jail

A Falls Township man is right back where he started from after he scaled a 20-foot wall in Clinton County Jail, Lock Haven, Pa., yesterday.

Wesley Brassington, 34, of 241 Alden Ave., was arrested Wednesday in Renova Pa. on various charges of burglary, auto theft, and illegal possession of a deer, which he had in the trunk of the car.

Yesterday, Brassington managed to scale a wall and escape in another car. One hour later, a state police radar team flagged him down on Route 120, about 20 miles north of Lock Haven, and started to question him about speeding.

During the questioning, a police radio broadcast gave details of Brassington's escape. So they arrested him and brought him back to the Clinton County jail, where he was further charged with prison breach and another car theft.

Falls Township police said they had arrested Brassington on a warrant from Montoursville State Police last May when he was wanted for charges of burglary, larceny and receiving stolen goods.

**At Middletown Supervisors Caucus**

## *Skateboarders To Ask Speed Cut On Hill*

**By GREG NAGY**
**Courier-Times Staff Writer**

Representatives of the Snowball Gate Surfers Association will appear tonight before the Middletown Township Board of Supervisors and ask for a reduction of the speed limit on the club's favorite "surfing" or skateboarding hill.

Also expected to attend the caucus session of the supervisors will be Howard C. Shook, chief of the Middletown police.

The teenage surfers hope the speed limit on Snowball Drive will be lowered in order to give the enthusiasts a place to use their skate boards. A speed limit reduction, the surfers feel, would make the road safer and is to be requested as a compromise.

Other surfers will meet tonight on the hill to make further plans in their effort to preserve the skate boarding.

**To Give 2 Reasons**

Chief Shook is expected to ask the supervisors to take action at a future Wednesday meeting and approve a ban on skateboarding on township streets. He gave two reasons for his request: the danger to the person doing the surfing and the traffic hazard the sport creates.

Another person who said she expects to attend the meeting is Mrs. Joseph Rogow of 59 Spindletree Road, Snowball Gate.

"I am not against kids, "she

## Sheppard's Lawyer Appeals

CLEVELAND, Ohio (AP) — Dr. Sam Sheppard's attorney says he is asking the 6th U.S. Circuit Court of Appeals to reconsider its order sending Sheppard back to prison to serve out his sentence for the 1954 slaying of his wife, Marilyn.

## Ships Crash, 6 Missing

ST. IGNACE, Mich., (UPI)— A Great Lakes freighter and a Norwegian merchant ship collided in the fog-shrouded straits of Mackinac today.

The Coast Guard in Cleveland said the 588-foot freighter, Cedarville, owned by U. S. Steel Corp., went down two miles east of the Mackinac Bridge. It carried a crew of 35.

The Coast Guard said rescue ships picked up 28 survivors and one body, all apparently crewmen from the Cedarville. Six men were reported missing. Five of those rescued were badly injured.

The Cedarville was loaded with limstone and was enroute from Calcite, Mich., to the U. S. Steel plant at Gary, Ind., when she went down in the waters connecting Lakes Huron and Michigan. Ironically, the last great tragedy on the Great Lakes also involved a U. S. Steel ore carrier, the "Bradley." She hit a reef and went down during a fall storm on Lake Michigan in the fall of 1959 with a loss of 33 lives.

The other ship in today's collision, the 420-foot Norweigian merchant man, "Topdalsfjord," suffered extensive damage to the bow, but apparently
(Continued on Page 16, Col. 5)

## Dog Fight Puts Him In Hospital

WASHINGTON (UPI) — Him, President Johnson's beagle, has been hospitalized for injuries suffered in a dog fight in the White House yard.

The President passed the word to reporters in his office today that Blanco, his white collie, bit the beagle on the right eye.

The dog will be in an animal hospital over the weekend, Johnson said.

## Dance Committee

Final plans for the annual Upper Makefield Township PTA dinner-dance, to be held Saturday at 7 p.m. in Landwehr's Restaurant, are examined by the committee members, (left to right) Mrs. Richard Kauffman, Mrs. Norman Olsen, Mrs. Earl Loucks, Mrs. John Whelan and Mrs. John Shalley, in Mrs. Shalley's home, Washington's Crossing. Proceeds of the dance, will be used for PTA projects, including the annual scholarship, books for the library and projection screens for each classroom in the school.

# Morrisville High Concert Is Tonight

The annual instrumental concert of the music department of the Morrisville High School will be presented tonight at 8:15 o'clock in the school auditorium.

More than 100 musicians, nearly all taught and trained in the school's instrumental music program, will present a concert of band favorites.

The two performing groups will be the high school Concert Band and the Junior Band, Both under the direction of Horace M. Hutchison, supervisor of music. The program is sponsored by the Band Boosters Association.

**Trumpet Trio**

Featured will be a trumpet trio of Jeffrey Clay, John Firman and Donald O'Brien, playing Anderson's "Bugler's Holiday" with band accompaniment.

Junior band soloist is Glenn Wagner, trumpeter, playing another Anderson composition, "Trumpeter's Lullaby."

The school's color guard and majorettes will perform at the concert, Hutchison said. The Band Booster's Association Band Participation awards will be given during intermission.

The Junior Band will play a group of selections, which have been prepared with the goal of advancing band members to the Senior Band, Hutchison said.

He said 20 graduating seniors will be playing their final concert with the Morrisville High School band. Twelve of the seniors have played throughout the junior-senior band program.

The public has been invited to attend the concert, which is one of a series of musical events presented throughout the school year by the music department.

## Spring 'Planning'

The warm Spring weather moved the Quarry Hill PTA Spring Dance Committee outside the school walls and into the greening grass, as Joseph F. Malloy, principal, discusses plans for Saturday's dance at Westaby Hall, Fairless Hills, with Mrs. Robert Crandall, (center) and Mrs. William Dawson. The annual dance will start at 9 p.m. with music by Bob Scammell's Orchestra. (Courier-Times Photo by John Ligos)

# Carter Receives Nod Of Good Govt. Group

Russell F. Carter, chairman of the Lower Makefield Township Board of Supervisors, who is unopposed for the GOP nomination for the additional four-year term, has received the endorsement of the township's Republicans for Good Government Committee.

Carter, in a statement issued today, said he was in agreement with the positions taken by two other committee-endorsed candidates, Fred P. Van Orden and William J. Johnson.

He said he agreed with them that the two key election issues were the township manager form of government and public discussion of major decisions pending before the board of supervisors.

In his statement, Carter said, "I helped draft our original township manager ordinance and fought for its enactment. It has been under this form of government our township has made its greatest strides.

"I agree with Van Orden and Johnson that this township needs a strong township manager form of government and I too pledge my utmost to strengthen it," he said.

**Contrast**

Recently enacted ordinances require that the township manager must reside in Lower Makefield Township and limits his expenditures to $100 without board approval. The new ordinances stipulate he may not hire or fire official personnel.

This is in contrast to the original ordinances and to second class township codes which permitted the manager substantially more authority and responsibility.

"For our township manager to operate efficiently he must have this full authority and responsibility. He must be freed from the shackles of these recently enacted, overly restrictive ordinances," he said.

Carter also agreed their should be a full public discussion of major decisions coming before the board of supervisors, and urged all candidates to speak out on "these vital issues."

# Must Follow Will, Judge Orders

President Judge Edwin H. Satterthwaite, sitting in Commons Pleas and Orphans Courts, today issued a restraining order preventing Mrs. Alfred O. Redland and William Heefner from selling 10,067 shares of Vulco stock to any persons other than those named in the late Mr. Redland's will.

Control of the stock in the Vulcanized Rubber and Plastics Co., Morrisville, has been contested by a group of stockholders representing the present management, opposed to an attempt by another group to take control of the firm in legal proceedings.

In Redland's will he named five persons — Robert J. Dobuski, president; John F. Corr, director of research and development; Catherine M. Gale, Wesley A. Konover and Heefner, as persons to share in his stock bequests.

Heefner, of Morrisville, a law partner of Congressman Willard Curtin, represents stockholders who have a controlling interest in the company.

The dispute concerned whether David H. Felix, a Philadelphia attorney, was elected to join Heefner as trustee of a syndicate.

Dobuski heads the rival faction, which claims the election was invalid.

The judge held in abeyance Mrs. Redland's court action to have Heefner removed as co-executor of Mr. Redland's will.

Judge Satterthwaite issued the restrain against selling Redland's stock to any person known as the "syndicate trustee." He said this syndicate agreement is no longer in effect and at the "very latest it terminated June 6, 1964, probably before that." The judge said Felix is no longer a trustee in that Heefner can not legally act alone.

## Morrisville School Unit

# Reorganization Plan Gets State Approval

Courier-Times
Harrisburg Bureau

Morrisville School Board's application for advance establishment by July 1, under the reorganization of Bucks County School districts, has been approved by the State Department of Public Instruction, it was announced today.

The unit comprises only the Morrisville Borough School District, listed as having an average daily membership of 1,364 pupils in its schools in the 1961-62 school year, the period used on a state-wide basis in compiling data for reorganization plans.

Establishment of all units in a county plan is mandated in the school law for July 1, 1966. Provision was made in the law, however, for any unit to apply for advance establishment in a school year prior to the mandated date.

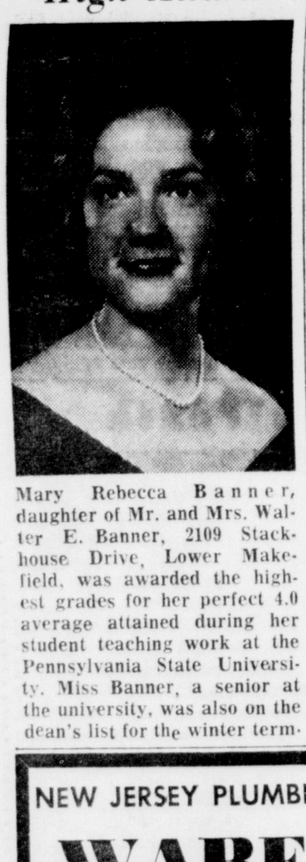

**Unit 9**

Notice of approval of the application of Unit 9 has been sent by the department to the Bucks County Superintendent of Schools, authorizing that official to call a meeting of the directors of the school district to form a committee to plan operation of the newly established unit. This committee will serve until a school board is chosen through public elections extending over a given period of time.

It was pointed out that advance establishment of a unit moves up to the indicated date an increase to $800.00, the sum upon which the per teacher reimbursement fraction is based under the new school law.

Unit 9 is the only administrative unit in Bucks County up to this time to enter the advance establishment status, the department said.

## High Award

Mary Rebecca Banner, daughter of Mr. and Mrs. Walter E. Banner, 2109 Stackhouse Drive, Lower Makefield, was awarded the highest grades for her perfect 4.0 average attained during her student teaching work at the Pennsylvania State University. Miss Banner, a senior at the university, was also on the dean's list for the winter term.
